

Product Data Sheet

6530CM

360° volumetric PIR motion sensor

The DesignLine series is a brand new range of volumetric motion sensor using a PIR element and digital signal processing. This series is suitable for residential and light commercial environments. The DesignLine series builds customer value by meeting customers' security needs while respecting budget constraints. This range is quick to install and comes with a stylish housing. It provides detection for a variety of ranges, including up to 360 degrees of coverage for ceiling mount applications. It even has a variant with smart pet immunity up to 35kg, making this series all the more attractive. In launching our new range of Fresnel PIR motion sensors, we have listened and are responding to end users' needs. These motion sensors deliver easy solutions for installers - being equipped with a standard EOL resistor and providing flexibility in installing height and are the ideal security solution for residential and light commercial applications. In addition to wall mounted versions, the 6530CM provides 360° of detection.

Standard Features

- Passive Infra Red volumetric motion sensor
- 360° coverage
- Digital signal processing
- Unique stylish design
- Quick to install
- Built-in EOL resistor of 3k3 Ohm
- UL/CUL and EN50131-2-2
- Holds several European security approvals

6530CM

360° volumetric PIR motion sensor

Specifications

Detection range	coverage diameter of 9.3m at 3.6m mounting height
Detection range (UL/CUL approved)	coverage diameter of 26ft at 12ft mounting height
Optics	Fresnel lens
Power supply	9 to 15 VDC
Current consumption (nom.)	8.7 mA
Alarm relay	<24 VDC, 50mA, NC
Tamper relay	<24 VDC, 50mA, NC
Target speed range	30cm/s to 3m/s / 1ft/s to 10ft/s
Dimensions (diameter x H)	116 x 33 mm
Weight	98g
Ambient conditions	-10 to +55°C / 14°F to 130°F
Relative humidity	max. 95%
EN50131-2-2	Grade 2
UL/CUL variant	available

Ordering Information

Part No.	Description
6530CM	360° volumetric PIR motion sensor
